Dairy Excellence Foundation

EVERY STORY *starts somewhere*

2025-26 ANNUAL SUMMARY

DOWNLOAD THE REPORT

10 MILLION LIVES. 10 MILLION *stories.*

"As your newsletter does point, the next sign. That comment has when you first learned about your work more passionately about it's 2025-26 was a year like a lightbulb went off in our heart saying, YOU & I work hard about to be. Over that year 10 years, the Dairy Excellence Foundation has grown and expanded in many ways. Our mission remains the same, but our reach has grown exponentially. We've had the privilege to tell the stories of the dedicated dairy people who are the heart of America's dairy industry. We've also had the opportunity to share our Discover Dairy lessons widely. It used the high school student who got a dairy farmer when another state and went to be scientist on our farm and now is a veterinarian. Or the young man who was struggling in school and found his passion in dairy science. Or the dairy nutritionist and that their there money- stronger to their and experience." And she's shared. Added Dairy Mart is used to share more science stories and its easier with the dairy industry. Everybody's story starts somewhere. We are thankful for the work we do to share some of these stories because we know they can change lives."

"Over the last 10 years, the Dairy Excellence Foundation has impacted 10 million students. Your stories and continued support have helped us reach this milestone. Your generosity has made it possible to provide the resources and opportunities for students to learn about agriculture and careers in dairy. I value connections that I've made with the Foundation's board and staff. It's a fun honor. Dairy's so cool for hosting that knowing the dairy farmers of today and tomorrow. I'm excited to see what the next 10 years will bring as we continue to share the stories of dairy farmers and their families. Onward and up!" Lt. Governor Mandy Cohenour Dairy Excellence Foundation board member and alumni Rachel Hansen, Chairman of the Board of Directors

Vision

To empower the next generation of the dairy industry.

Mission

We build and invest in programs that cultivate and inspire the next generation of producers, consumers and advocates for the dairy industry.

Our Values

Legacy | Education | Collaboration | Integrity | Creativity

"It's an honor to receive this scholarship from organizations that help to make sure the PA dairy culture thrives. Dairy can be very challenging, but it's also very rewarding, given to my career, and get to meet so many great people in the industry. I'm very thankful for this opportunity." Kaylee Bollinger, a 2025 scholarship recipient

"The Dairy Science graduate program is one-of-a-kind—we work closely with other classes to do with my future, and I'm very thankful for the opportunity to be a part of it. I'm very thankful for this opportunity to be a part of it. Interning is what they had to say with the knowledge they've accumulated over their years of experience." Claire Hicks, Dairy Science major and Dairy Challenge Team member

Putting Pen to Paper *creating the future of dairy*

Dairy Excellence Foundation scholarships are awarded to students who are pursuing careers in the dairy industry. Scholarships are based on academic achievement, leadership experience, financial need, letters of recommendation, and a personal statement. Through our Dairy Academy of Excellence (DAE) program, we provide curriculum, scholarships, and professional development opportunities to students who are committed to excellence in the dairy industry.

"Today was the 2-3 Farm Tour. I was trying to decide whether I really wanted to do animal science in college or not. I've been on a lot of farms before, but I've never been on a farm like this. I've never been on a farm where we were such an important piece of the puzzle. I've never been on a farm where I felt so welcomed and so appreciated. I've never been on a farm where I felt so welcomed and so appreciated. I've never been on a farm where I felt so welcomed and so appreciated
