

Your Passion... Our Purpose

Growing Dairy Profitability in Pennsylvania

Be a part of the momentum to grow a stronger, more profitable dairy industry in Pennsylvania.

The **Center for Dairy Excellence** is a non-profit organization created in 2004 to empower the people, create the partnerships and coordinate the resources to grow dairy profitability in Pennsylvania. About 50 percent of the funding for the center comes from the Pennsylvania Department of

Agriculture, while the remaining funds come from private and public grants and through industry support.

A shining example of a public/private partnership, the center's programs and resources are making a meaningful and positive impact on individual dairy farm families, allied businesses and on the greater dairy industry. Show your support for current and future initiatives to grow strong dairy farm businesses and a more vibrant dairy industry through becoming an Ally for Advancement.
