### **DAIRY INDUSTRY PROFESSIONALS INVITED TO MEET WITH CENTER** *Center for Dairy Excellence to Host Mealtime Meetings*

**Harrisburg, Pa.** – The Center for Dairy Excellence will host five mealtime meetings across Pennsylvania to collect feedback and input on resources to direct the future of the state’s dairy industry. The Center invites dairy industry professionals to participate in an informal discussion about dairy profitability and associated topics.

“Pennsylvania’s dairy industry is in a tremendous state of change right now, and the meetings will provide the opportunity for industry professionals to gain more insight into market factors influencing that change,” said Jayne Sebright, executive director of the Center for Dairy Excellence. “We also want to hear from, and have a conversation with, those who work in the dairy industry on the resources needed to support dairy farms across the commonwealth.”

Field representatives, nutrition consultants, lending agents and all industry representatives are invited to prepare topics which they would like to discuss, from business planning to dairy policy. Center staff members will be joined by representatives from American Dairy Association North East (ADANE) and agents with the Penn State Extension Dairy Team, who will speak to current trends and topics in Pennsylvania’s dairy industry.
